E&AS' MISSION

E&AS is committed to using our professional expertise, knowledge, and skills to meet the needs of our customers.

E&AS' STANDARDS

E&AS builds public facilities that are: of enduring quality, energy efficient, environmentally conscious, operationally effective, and universally accessible.

Reminders:

- **July 9** – All travel reimbursement requests through June 30, 2010 must be submitted and approved.
- **July 12** – Temporary Lay-Off

PROJECT OF THE WEEK - PIERCE COLLEGE PUYALLUP CAMPUS ARTS/ALLIED HEALTH CENTER

Todd Flynn, Project Manager

The construction of the new 60,000 square foot Arts and Allied Health Center is near completion and will be ready for the fall quarter at the Pierce College Puyallup campus. The project has struggled with schedule delays including the failure of the structural steel supplier early on in construction. However, the project is on track for a LEED Gold certification.

The building includes: general classrooms, faculty offices, a recording studio, theater, recital hall, multi-media and allied health classrooms. The \$20 million building is being built by Leo Finnegan construction and was designed through a partnership of MSGS and OPSIS Architecture.

SAFETY, HEALTH, AND WELLNESS CORNER

E&AS' Safety Inspection Will Be Conducted in July

Please look around your desk area for anything that may be a tripping hazard, unsafe, or unhealthy. Help E&AS pass our inspection with a 100%.

Your Health Risk Assessment online survey is still available; some health care providers will give money or gift certificates for participating. You can find a link on GA's Intranet under Safety Wellness.

GA's Safety Manual is available online at: <http://gaapoly01/HR/Safety/index.html>. You are **strongly urged** to read and follow the Safety Manual.

MINORITY AND WOMEN BUSINESS ENTERPRISE (MWBE) ARCHITECTS AND ENGINEERS

Nature of Business

Programming, Space Planning and Interior Design Services, Library Planning & Design

Introduction/Firm Overview

Design Perspectives provides programming, space planning and interior design services. For over twenty-five years, we have worked on public projects ranging from educational to healthcare, service facilities to office facilities. Our clients are cities, counties and the state of Washington, working directly for our clients or as members of a design team. Our most recent focus has been on educational facilities, particularly with library planning and design.

We have extensive experience in developing space needs projections and space plans for our clients and architects who are building new facilities or remodeling existing ones.

Additionally, we offer interior design services, which include color, materials and finishes selection and specification. Beyond space planning, we can also provide furnishings selection and specifications.

Number of employees: 2
